

World Regions in Global Context: Peoples, Places, and Environments

6th Edition

Sub-Saharan Africa

Lectures by:
Christa Ann Smith

Learning Outcomes

- Compare the physical geographies of the diverse regions of sub-Saharan Africa, contrasting the climate and vegetation of the Sahel and the Congo Basin, the East African Rift Valley and Okavango, and the major rivers.
- Evaluate the role of physical geography, disease, and mineral resources in shaping conflicts, crises, landscapes, and economies.
- Identify the impacts of human activity on African wildlife and climates and some of the solutions to these threats.
- Summarize the legacies of European colonialism and the Cold War in the region and how these, together with the diversity of ethnicities, religions, and languages, have created conflict within and between countries.

Learning Outcomes

- Explain how debt relief, the end of several conflicts, and improving the status of women may increase the chance of positive economic and political futures in sub-Saharan Africa.
- Describe the main causes of low agricultural production in sub-Saharan Africa, connections of agriculture to desertification and deforestation, and problems that are emerging around land grabs.
- Analyze factors affecting the characteristics of populations in sub-Saharan Africa, including the demographic transition, HIV/AIDS and other diseases, urbanization, fertility changes, and migration.
- Provide examples of how African people, goods, and culture have spread around the world as a result of slavery, colonialism, and globalization.

Sub-Saharan Africa

- Some of fastest growing economies in the world
- Peace achieved in many regions
- Health indicators starting to improve

Environment, Society, and Sustainability

- Large, complex continent
- Region of Africa south of the Sahara

Climate and Climate Change

- Intertropical convergence zone (ITCZ)
- Subtropical high pressure
- Seasonal rainfall

Climate and Climate Change (cont.)

- **Sahel**
 - **desertification**
 - **pastoralism**
 - **overgrazing**
 - **deforestation**
 - **unskilled irrigation**

(a)

(b)

Climate and Climate Change (cont.)

- Climate change
 - extreme vulnerability
 - low greenhouse emissions

Geological Resources, Risk, and Water

- Plate tectonics
 - Pangaea
 - **Gondwanaland**
 - plateau continent
 - **rift valley**

(a) Permian Period
250 million years ago

(b) Triassic Period
250 million years ago

(c) Jurassic Period
145 million years ago

(d) Cretaceous Period
65 million years ago

(e) Present Day

Water Resources and Dams

- Water resources
 - large river systems
 - **Sudd**
 - dam projects
 - Kariba
 - Akosombo

(c)

Water Resources and Dams (cont.)

- Soils
 - not very fertile
 - tropical soils
 - desert landscapes
- Mineral resources
 - vast reserves
 - assets and liabilities
 - gold

Geographies of Indulgence, Desire, and Addiction

- Diamonds
 - 65% originate in Africa
 - De Beers
 - **conflict diamonds**
 - Sierra Leone
 - Liberia
- Kimberley Process

(a)

US 00000

Kimberley Process Certificate
UNITED STATES OF AMERICA

The rough diamonds in this shipment have been handled in accordance with the provisions of the Kimberley Process International Certification Scheme for Rough Diamonds.

Issuing Authority: U. S. K. P. A. Date of Issue _____

Exporter _____ Date of Expiry _____

Importer _____ Number of Parcels _____

Value in U.S. \$ _____ Carat Weight/Mass _____

Relevant Harmonized Commodity Description and Coding System _____

SPECIMEN

The issuer of this certificate accepts no responsibility relating to the accuracy of the data recorded by the exporter of the referenced shipment.

100 000000

(b)

Ecology, Land, and Environmental Management

- Ecosystems
 - rainforests
 - **savanna**
 - deserts
 - Madagascar
 - deforestation

Ecology, Land, and Environmental Management (cont.)

- Diseases and pests
 - malaria
 - schistosomiasis
 - river blindness
 - World Health Organization (WHO)
 - tsetse fly

Ecology, Land, and Environmental Management (cont.)

- Land use and agriculture
 - < 30% of soils good for cultivation
 - **domestication**
 - **shifting cultivation**
 - slash-and-burn
 - bush fallow
 - **intercropping**
 - **transhumance**

(b)

(c)

Ecology, Land, and Environmental Management (cont.)

- Conservation
 - rich biodiversity
 - 5% of area protected
 - criticisms of parks
 - **bushmeat**
 - **Green Belt Movement**

(a)

(b)

History, Economy, and Territory/Historical Legacies and Landscapes

- Human origins
 - “cradle of humankind”
- Early history
 - Aksum
 - West African empires
 - Zanzibar

Historical Legacies and Landscapes (cont.)

- European settlement
- Slave trade
 - Southern Africa
 - Boers
 - **Afrikaners**
- Exploration
 - quinine
 - Victorian explorers
- Scramble for Africa
 - **Berlin Conference**

Historical Legacies and Landscapes (cont.)

- Colonial legacy
 - arbitrary political boundaries
 - extraction and export
 - introduction of European languages
 - European colonial policies

(b)

Independence

- Independence movements
 - Transitions
 - British
 - French
 - Belgian
 - Portuguese

Economy, Debt, and the Production of Inequality

- Dependency and debt
 - terms of trade
 - **G8**
 - import substitution

Agricultural Challenges and Opportunities

- **Yield gaps**
- Subsistence farming
 - Commercial farming
 - **Land grabs**
 - Urban agriculture
 - **Fair trade movement**

(a)

(b)

Agricultural Challenges and Opportunities (cont.)

- Manufacturing and services
 - output doubled in last decade
 - microfinance programs
 - telecommunications
 - informal economy
 - **remittances**
 - strong recent economic growth

Agricultural Challenges and Opportunities (cont.)

- Inequality and development
 - large income disparities
 - life expectancies
 - **ECOWAS**
 - African Union

Territory and Politics

- Apartheid
 - South Africa
 - Nelson Mandela
 - Geographic separation of races
 - Pass laws
 - Homelands

Territory and Politics (cont.)

- Civil wars and internal conflicts
 - Rwanda and Burundi
 - **genocide**
 - Liberia and Sierra Leone
 - **child soldiers**
 - Somalia and Ethiopia
 - **failed state**

Territory and Politics (cont.)

- Peacekeeping
 - U.N. presence
 - ECOMOG

Visualizing Geography

- Millennium Development Goals

- eradicate poverty
- universal primary education
- promote gender equality
- combat disease
- ensure environmental sustainability

Culture and Populations/Ethnicity

- Large, diverse region
- Traditional religions
- Hundreds of different **ethnic groups**
- **Tribe**
- Largest ethnic groups associated with dominate languages

- Animist (worship of nature)
- Spread of Christianity and Islam dominate
- More than 1,000 living languages
- **Lingua franca**

Cultural Practices, Social Differences, and Identity

- Kinship
- Land
- Music, art, and film
 - musical traditions
 - **griots**
 - pop music
 - African art
 - **Nollywood**
- Sport
 - soccer
 - distance runners

Cultural Practices, Social Differences, and Identity (cont.)

- Changing roles of women
 - feminization of poverty
 - patriarchy
 - property rights
 - programs that recognize women's contributions

Demography and Urbanization

- Annual growth rate of 2.7%
 - children valued
 - security for elderly
 - ready source of labor
 - symbols of status
- Fertility
 - conditions for women
 - age of marriage
 - education
 - urban vs. rural

Demography and Urbanization (cont.)

- Health concerns

 - HIV/AIDS**

 - rates highest in Southern/Eastern Africa
 - women more affected
 - role of poverty
 - low health-care budgets

Demography and Urbanization (cont.)

- African cities
 - rural-to-urban migration
 - nearly 40% of population urban
 - **Urban bias**

(a)

(b)

Demography and Urbanization (cont.)

- African diaspora
 - Legacy of slavery
 - Post-colonial
 - Brain drain
- Migration within Africa
 - Search for employment
 - Leaving conflict areas
- Refugees/IDPs
 - 15.1 million in the region

Future Geographies

- Sustaining representative and affective government
 - transparency and greater participation
- Economic opportunities
 - ensuring food security
 - debt forgiveness
 - fostering a middle class
- Food, water, health and energy for all

Sustainable Development Goals

- End poverty in all its forms everywhere.
- End hunger, achieve food security and improved nutrition, and promote sustainable agriculture.
- Ensure healthy lives and promote well-being for all at all ages.
- Ensure inclusive and equitable quality education and promote life long learning opportunities for all.
- Achieve gender equality and empower all women and girls.
- Ensure availability and sustainable management of water and sanitation for all.
- Ensure access to affordable, reliable, sustainable, and modern energy for all.
- Promote sustained, inclusive and sustainable economic growth, full and productive employment, and decent work for all.
- Build resilient infrastructure, promote inclusive and sustainable industrialization, and foster innovation.
- Reduce inequality within and among countries.
- Make cities and human settlements inclusive, safe, resilient and sustainable.
- Ensure sustainable consumption and production patterns.
- Take urgent action to combat climate change and its impacts.
- Conserve and sustainably use the oceans, seas, and marine resources for sustainable development.
- Protect, restore, and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, halt and reverse land degradation, and halt biodiversity loss.
- Promote peaceful and inclusive societies for sustainable development, provide access to justice for all, and build effective, accountable and inclusive institutions at all levels.
- Strengthen the means of implementation and revitalize the global partnership for sustainable development.

End of Chapter 5
